MESSAGE FROM THE CEO

Dear colleagues,

A company's success is largely built on trust — not only on that of its business partners, shareholders but also and especially on that of its employees.

Trust cannot be taken for granted. It has to be earned by ensuring transparency, reliability and fairness.

Integrity has been and still one of Adisseo's values, with this in mind, we have developed this Code of Ethics for all Adisseo employees.

The code of Ethics sets out the principles and rules of conduct that each one of you, whatever your job title or position, undertakes to comply with and implement on a daily basis in the context of your assignments. This code aims to provide you with guidance for those situations in which you may feel the need for reassurance regarding your choices.

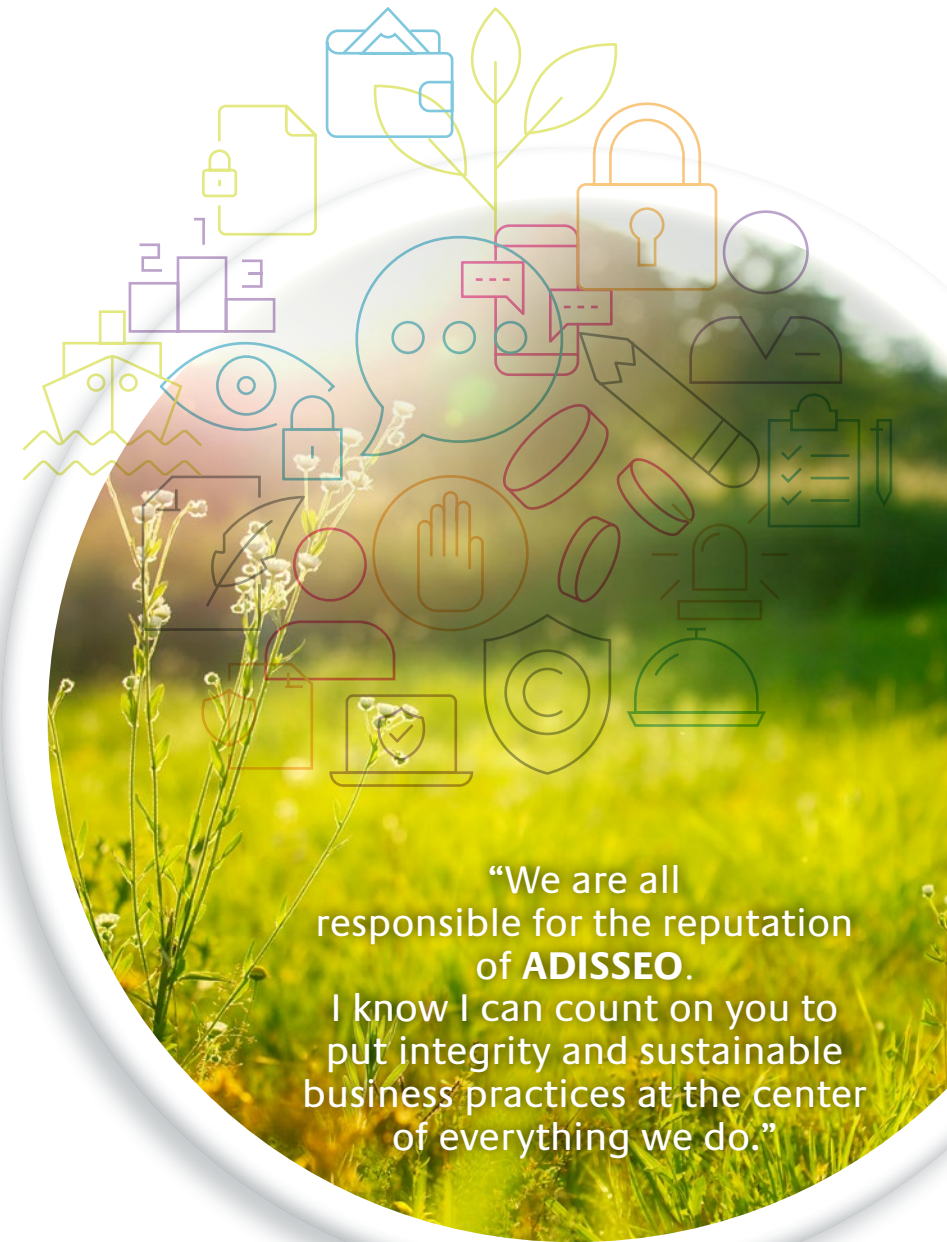

While this code cannot possibly cover all of the sensitive situations that you may have to deal with, in such cases, the principles of respect, fairness, transparency and precaution must constitute points of reference to help you determine what to decide and how to act.

I am convinced that Adisseo's success cannot be separated from the well-being of our environment and our communities. We cannot conceive to be successful without being compliant and responsible towards all our stakeholders.

I expect each of you to comply with the rules of the Code at all times, while taking responsibility for your own conduct.

Very truly yours,

Jean Marc Dublanc
CEO, Adisseo Group

“We are all responsible for the reputation of **ADISSEO**. I know I can count on you to put integrity and sustainable business practices at the center of everything we do.”

EXECUTIVE COMMITTEE AND COMPLIANCE OFFICER COMMITMENTS

This Code of Ethics is crucially important to Adisseo's success. Ethics applies to the behaviour of all Adisseo's Group employees, everywhere in the world, at all levels of the Company, without exception.

Each of us, as an ambassador and member of Adisseo's community, makes a personal commitment to follow this Code, both in letter and spirit.

You should always remember that:

- the ethical principles set out in this code are not optional: you must respect them
- you set the example: Adisseo's reputation, the trust of all our stakeholders, depend on each of us
- you will be evaluated not only on what you do but also on how you do it.
